

INSTRUCTION

Student Evaluation and Reporting

The Prince William County School Board requires that student evaluation is an essential part of the educational process; therefore, assessments of student achievement and effective evaluations in Carnegie unit courses will include a final examination and shall be used as measures of student progress toward meeting instructional objectives.

The evaluation results shall be communicated by staff on a regular cycle through report cards to parents/guardians, students, and staff as indicators for the maintenance and improvement of each student's performance. Grade distributions and results of assessments shall be reviewed and analyzed to assist in improving instruction.

The Associate Superintendent for Student and Professional Learning (or designee) is responsible for implementing and monitoring this policy.

This policy and any related regulations shall be reviewed at least every five years and revised as needed.
